# Demonstration Team

---

The Demo Team is equipped with state of the art systems components, including mission command and support vehicles and an H-1

Hummer mobile ground control station.

This transportable system is capable of conducting full flight demonstrations ranging in scope from single UA operations to hub & spoke ops with multiple UAs and site. Whether on our turf or yours, the Demo Team will personalize each demonstration to show how we can best meet our customers' unique UAS needs. To have us send them your way, contact Dave Sliwa at [dave.sliwa@insitu.com](mailto:dave.sliwa@insitu.com).
