

KEVIN R. GRAY

Chief Financial Officer

J.D., Roger Williams University School of Law

M.B.A. International Business, Providence College

B.S. Accounting, Bryant College

Kevin Gray is the Chief Financial Officer for Insitu. In this role, Kevin will lead Insitu's finance organization with oversight for contracts, financial management, financial planning, pricing and estimating and accounting.

Kevin joined Insitu in 2015 and has served in a variety of positions. In his most recent position, Kevin was appointed interim CFO in September 2022. Here he focused on 2022 year-end performance, 2023 business planning and finance organization team building and structure.

Kevin previously served as Associate Vice President for Customer Contracting at Insitu from 2017-2022. In this position, he successfully captured multiple large-scale contracts with the Department of Defense, Department of Homeland Security, and with international allies. Kevin also successfully lead the contract management in support of these program areas.

Additionally, Kevin was Insitu's Director of Contracts from 2015-2017, where he was responsible for all contractual matters, compliance to company policy and procedures, and the mitigation of business risks during a time of exponential company growth

Prior to joining Insitu, Kevin was the Senior Manager for Contracts at Raytheon's Integrated Defense Systems (IDS) division. Here he was responsible for all facets of complex multi-year contracts for the Seapower Capability Systems business area that provided a full spectrum of systems and services to the U.S. Navy and international allies.

Prior to his time at Raytheon, Kevin served in multiple leadership positions at Anteon Corporation, before it was acquired by General Dynamics, serving as the Manager of Contracts, Director of Business Operations and finally as Division Director.

In addition to his formal educational accomplishments, Kevin has held professional affiliations with the National Contracts Management Association (NCMA) and the International Association of Contract and Commercial Management (IACCM). He is also a Six Sigma Specialist and a Raytheon Leadership Excellence Program graduate.
